

Why should I accept Bitcoin?

- Bitcoin transactions are cheaper than PayPal, Visa, or MasterCard—usually less than 1%!
- Bitcoins can be transferred internationally without limits, delays, or excessive fees.
- Bitcoin payments are irreversible and secure, eliminating the risk of fraudulent charge-backs.
- Accepting bitcoins is a great way to reach new customers and grow the visibility of your business while saving money!

How do I accept Bitcoin?

- Accept bitcoins through Coinbase or BitPay.
- Any computer or smartphone can be set up to accept bitcoins through either company.
- As a merchant, you can instantaneously convert your bitcoins to dollars, eliminating the risk of price volatility!

How do I learn more about Bitcoin?

- A great resource to learn more about Bitcoin is at bitcoin.org

Tell the world!
